

AUSD NET for TEACHERS

<http://teachers.ausd.net>

This is an Internet server created by AUSD students for students and teachers. This service is provided to us for free. It offers E-mail and web space, just as AOL does. The advantage for teachers is in the web space and privileges. Every teachers may post their own web pages from home. Previously only LI TE tech could do this from school. Your LI TE tech still can load and link your web page to the school site. Posting to AUSD Net is different and independent form your school site.

How To Sign-up:

1. Open an Internet browser (Internet Explore for example).
2. Type in "<http://teachers.ausd.net>" in location box and press **Enter**.
3. The first time you will need to click on **sign-up**.
4. Enter your *first time* user name: _____
5. Enter your *first time* password : _____
5. Click sign-up and fill in the information on the next page. You may now change your user ID and password.

Write your *new* info here. user ID: _____ Password: _____

You will also have a folder named private which is password protected.

6. Click **sign-up**. Now you are ready to load your web pages.

AUSD NET for STUDENTS

<http://students.ausd.net>

This is an Internet server created by AUSD students for students and teachers. This service is provided to us for free. It offers E-mail and web space, just as AOL does. THIS IS THE ONLY E-MAIL SERVICE YOU ARE ALLOWED TO ACCESS FROM SCHOOL. YOU SIGNED A CONTRACT AT THE START OF THE SCHOOL YEAR STATING YOUR UNDERSTANDING OF THIS POLICY.

How To Sign-up:

7. Open an Internet browser (Internet Explore for example).
8. The first time you will need to click on **sign-up**.
9. Enter your *first time* user name. This is your student ID number.
10. Enter your *first time* password. This is your normal (Novel) log-in password.
5. Click sign-up and fill in the information on the next page. You may now change your user ID and password. Your user name can be anything (appropriate please.)

Write your *new* info here. user ID: _____ Password: _____

You will also have a folder named **private** which is password protected.

This is a good place to store files you want to transfer to and from school.
